SYMCO-28 is designed for foliar use on all crops to prevent or correct micronutrient deficiencies. Foliar fertilization is intended to supplement standard ground fertility programs and will not by itself provide all nutrients normally required by agricultural crops.

Directions for Commercial Use:

Foliar: Apply 1 to 2 pints per acre with sufficient water for thorough coverage. For best results spray in early morning or late afternoon. Ground: Apply 1 to 2 quarts per acre. Ground application can be via conventional ground sprayer or metered through irrigation.

WARNING: The application of fertilizing materials containing molybdenum (Mo) may result in forage crops containing levels of molybdenum (Mo) which are toxic to ruminant animals.

APPLICATION PRECAUTIONS:

Tank Mixes and Spray Applications

SYMCO-28 is compatible with many fertilizers and pesticides but a compatibility check is always recommended. Do not apply SYMCO-28 in combination with citrus oils at more than 1 pt/ac or 0.25%, whichever is less or in combination with petroleum oils at more than 2 qts/ac or 1.0%, whichever is less.

Do not apply SYMCO-28 with any type of hand, pump or back-pack sprayer. Do not use hand gun type applicators. Apply with proper and accurately calibrated spray equipment to dry plant surfaces to the point of wet with no run-off. Avoid applying to wet leaf and fruit surfaces. Avoid spraying at temperatures above 85F degrees at time of application during day light hours.

Guaranteed Analysis:

Soluble Potash (K₂O)	1.0%
Cobalt (Co)	1.5%
Manganese (Mn)	0.5%
0.5% Chelated Manganese	
Molybdenum (Mo)	1.5%
Zinc (Zn)	0.5%
0.5% Chelated Zinc	

Derived from

Cobalt Acetate, Zinc EDTA, Manganese EDTA,
Sodium Molybdate, Seaweed extract (Ascophyllum
Nodosum) and Potassium Hydroxide

Net Weight: 23.85 lbs. / 10.82 Kg
Net Content: 2.5 gal. / 9.46 L
Density: 9.54 lbs/1gal
